CONTENTS

Volume 1, Issue Nos 1–4

International Journal of
ENERGY RESEARCH

Issue No. 1 JANUARY–MARCH 1977

Editorial 3

B. Lehnert: Thermonuclear Fusion Power 5

K. Ohashi, K. Uosaki and J. O'M. Bockris: Cathodes for Photodriven Hydrogen Generators: ZnTe and CdTe 25

J. R. Goulburn and D. W. Hughes: The Interacti ı of Automotive-Engine Efficiency and Exhaust Pollution 31

T. R. Buick, J. T. McMullan, R. Morgan and R. B. Murray: A Controlled Environment Laboratory for the Testing of Domestic Heat Pumps 47

M. Magnien: Utilizing Alternative Energy Sources in France 55

C. J. Blundell: Optimising Heat Exchangers for Air-to-air Space-heating Heat Pumps in the United Kingdom 69

BOOK REVIEW 95

CONFERENCE DIARY 96

Issue No. 2 APRIL–JUNE 1977

J. J. Stosur: Approaches to Extracting Potentially Recoverable Hydrocarbons 99

G. Kernan and J. Brady: Economic Evaluation of Heat Pumps 115

T. R. Buick, M. A. Doherty, J. T. McMullan, R. Morgan and R. B. Murray: On the Energy Pattern Factor in Wind Measurements 127

F. Mahdjuri: Highly Insulated Window Glazing 135

T. Hughes, J. T. McMullan, R. Morgan and R. B. Murray: On the Optimum Orientation of Solar Collectors 143

B. Robson: A Review of Gasification for Power Generation 157

T. Webb: Steam Trapping 179

BOOK REVIEWS 187

CONFERENCE DIARY 189

Issue No. 3 JULY–SEPTEMBER 1977

C. E. Horowitz and L. S. Mayer: The Relationship Between the Price and Demand for Natural Gas: A Partially Controlled Study 193

A. J. Abdulkarim and N. J. D. Lucas: Economies of Scale in Electricity Generation in the United Kingdom 223

H. J. De Bruin: The First Law of Uranium Dynamics 233

F. Hand, B. Asare and J. Haslett: Domestic Hot Water and Solar Energy in Ireland 249

K. Ohashi, J. McCann and J. O'M. Bockris: Hydrogen and Electricity from Water and Light 259

BOOK REVIEWS 279

CONFERENCE DIARY 283

Issue No. 4 OCTOBER–DECEMBER 1977

Editorial. 287

G. W. Brundrett: Ventilation: A Behavioural Approach. 289

M. Calvin: Hydrocarbons Via Photosynthesis 299

R. Bruno, W. Hermann, H. Hörster, R. Kersten and F. Mahdjuri: Analysis and Optimization of Solar Hot Water Systems. 329

G. R. Hill: Critical Paths to Coal Utilization 341

K. Gawron and J. Schröder: Properties of Some Salt Hydrates for Latent Heat Storage . . . 351

SHORT COMMUNICATION

R. Wilson, J. T. McMullan, R. Morgan and R. B. Murray: On the Optimum Orientation of Solar Collectors—An Alternative Approach 365

BOOK REVIEWS 369

CONFERENCE DIARY 372

Volume Contents 375

Author Index 377

Key Word Index. 379

AUTHOR INDEX, VOLUME 1

Abdulkarim, A. J. and Lucas, N. J. D.: Economies of scale in electricity generation in the United Kingdom, 223
Asare, B.: see Hand, F., 249

Blundell, C. J.: Optimising heat exchangers for air-to-air space-heating heat pumps in the United Kingdom, 69
Bockris, J. O'M.: see Ohashi, K., 25 and 259
Brady, J.: see Kernan, G., 115
De Bruin, H. J.: The First Law of Uranium Dynamics, 233
Brundrett, G. W.: Ventilation: A Behavioural Approach, 289
Bruno, R., Hermann, W., Hörster, H., Kersten, R. and Mahdjuri, F.: Analysis and optimization of solar hot water systems, 329
Buick, T. R., McMullan, J. T., Morgan, R. and Murray, R. B.: A controlled environment laboratory for the testing of domestic heat pumps, 47
———, Doherty, M. A., McMullan, J. T., Morgan, R. and Murray, R. B.: On the energy pattern factor in wind measurements, 127

Calvin, M.: Hydrocarbons via photosynthesis, 299

Doherty, M. A.: see Buick, T. R., 127

Gawron, K. and Schröder, J.: Properties of some salt hydrates for latent heat storage, 351
Goulburn, J. R. and Hughes, D. W.: The interaction of automotive-engine efficiency and exhaust pollution, 31

Hand, F., Asare, B. and Haslett, J.: Domestic hot water and solar energy in Ireland, 249
Haslett, J.: see Hand, F., 249
Hill, G. R.: Critical paths to coal utilization, 341
Hermann, H.: see Bruno, R., 329
Horowitz, C. E. and Mayer, L. S.: The relationship between price and demand for natural gas: a partially controlled study, 193
Hörster, H.: see Bruno, R., 329
Hughes, D. W.: see Goulburn, J. R., 31
Hughes, T., McMullan, J. T., Morgan, R. and Murray, R. B.: On the optimum orientation of solar collectors, 143

Kernan, G. and Brady, J.: Economic evaluation of heat pumps, 115
Kersten, R.: see Bruno, R., 329

Lehnert, B.: Thermonuclear fusion power, 5
Lucas, N. J. D.: see Abdulkarim, A. J., 223

Magnien, M.: Utilizing alternative energy sources in France, 55
Mahdjuri, F.: Highly insulated window glazing, 135; see Bruno, R., 329
Mayer, L. S.: see Horowitz, C. E., 193
McCann, J.: see Ohashi, K., 259
McMullan, J. T.: see Buick, T. R., 47 and 127; see Hughes, T., 143; see Wilson, R., 365
Morgan, R.: see Buick, T. R., 47 and 127; see Hughes, T., 143; see Wilson, R., 365
Murray, R. B.: see Buick, T. R., 47 and 127; see Hughes, T., 143; see Wilson, R., 365

Ohashi, K., Uosaki, K. and Bockris, J. O'M.: Cathodes for photodriven hydrogen generators, 25
———, J. McCann, J. and Bockris, J. O'M.: Hydrogen and electricity from water and light, 259

Robson, B.: A review of gasification for power generation, 157

Schröder, J.: see Gawron, K., 351
Stosur, J. J.: Approaches to extracting potentially recoverable hydrocarbons, 99

Uosaki, K.: see Ohashi, K., 25

Webb, T.: Steam trapping, 179
Wilson, R., McMullan, J. T., Morgan, R. and Murray, R. B.: On the optimum orientation of solar collectors—an alternative approach, 365

KEY WORD INDEX, VOLUME 1

Automotive petrol engine, 31

Behavioural study, 289

Carburation, 31
Coal gasification, 157
Coal utilization, 341
Controlled-environment laboratory, 47
Crystallization behaviour, 351

Economics, 115
Energy pattern factor, 127
Engine efficiency, 31
Environmental control regulations, 341
Exhaust emissions, 31

Fossil fuel extraction, 99
France, 55
Fusion, 5

Heat exchanger, 69
Heat pump, 47, 69, 115
Hot water system, 329
Hydrogen, 25

Infrared filters, 135
In situ combustion, 99
Insulated glazing, 135

Latent storage of thermal energy, 351

Natural power sources, 55, 127
Nuclear explosive fracturing, 99

Optimization, 329
Orientation of solar collectors, 143

Photocathodes, 25
Photosynthesis, 299
Power generation, 157
Process steam, 179

Review, 5, 157

Salt hydrates and eutectics, 351
Simulation, 143
Solar collectors, 135, 143
Solar energy, 299, 329
Solar power, 143
Steam traps, 179
Survey, 55

Telluride cathodes, 25
Test facilities, 47

Utilization of low-grade heat, 351

Ventilation, 289

Water photolysis, 299
Wind power monitoring, 127
